

**Richter Names NORPAC Controls Ltd.
As Value-Added Reseller for British Columbia**

NORPAC Controls is pleased to announce the latest addition to our product family. Richter has appointed NORPAC Controls as the authorized representative for the full range of Richter process valve products and services effective December 1st, 2006. The alliance of these two companies brings together “best in class” experience, product quality and service.

Richter Process Valves offers best in class PFA and PTFE lined butterfly, ball, and Section XIII ASME rated safety relief valves for reliable control, isolation or containment of your difficult process requirements.

Based in Burnaby, NORPAC Controls was founded in 1972 to serve the instrumentation, industrial and process control industries throughout British Columbia. The NORPAC Automation Division represents quality products in BC including Velan, Rotork Controls and FieldQ providing expertise in valve automation, maintenance and repair services. NORPAC has a full-service in-house machine shop capable of handling all of your automation requirements. The company is employee-owned and operated and has been selected as one of Canada's 50 Best Managed Companies.

Visit our website at www.norpaccontrols.com/products to learn more about Richter Valves and NORPAC's product range or contact us at 604.422.3700 to find out how we can help.

Best regards,
